# CURAÇAO QUANTUM WEEK PUBLIC EVENT

INVITATION

## Opening of Curaçao Quantum Week 2026

*From Quantum Awareness to Quantum Readiness*

*"Imagine if the sensitive data we protect today could become readable by anyone in the years to come." What should Curaçao be doing about that right now?*

The **Curaçao Quantum Safe Coalition (CQSC)** warmly invites you to the public opening of **Curaçao Quantum Week 2026** on **Tuesday, 3 November at Amazia**.

Quantum computing opens the door to new possibilities in science, innovation and economic development. It also calls for action today to prepare...

**What does this mean for you, your business and for Curaçao?**  
What opportunities lie ahead and how to move from awareness to practical preparation?

Join **international quantum experts Dimitri van Esch and Prof. Dr. Christian Schaffner**, alongside **Marc Samson and other local contributors**, for an evening of accessible insights, inspiring presentations, and an engaging, interactive panel discussion. After the presentations, stay for a networking session with drinks and snacks. ☺

**No technical background is needed. Just bring your curiosity!**

**Book early and save!** The first 50 tickets cost **XCG 37.50**, followed by 40 regular tickets at **XCG 85,-**.

Sold out? Email us at: [info@curacaoquantum.com](mailto:info@curacaoquantum.com) explaining why you would like to attend. An additional 20 places will be allocated based on motivation and availability.

This evening is for entrepreneurs, executives, policymakers, professionals, educators, students and anyone interested in Curaçao's digital and economic future.

**Come, ask questions and discover how we can make Curaçao quantum aware and quantum ready, TOGETHER.**

**DATE** Tuesday, 3 November 2026  
**TIME** 17:30 to 21:00  
**VENUE** Amazia (Pletterijweg z/n, Parera)

**TICKETS**
